

## NASA's Jet Propulsion

## Laboratory (JPL)

and Old Pasadena

**REGISTER NOW**

**Monday, May 11<sup>th</sup>**

**Member Price: \$105**

**Non-Member Price: \$115**

**Depart: 10:00 a.m.**

**Return: 5:00 p.m.**

Begin your day in Pasadena's charming and historic downtown district. Guests will have time to browse the area and enjoy lunch on their own at one of the many popular eateries. Following lunch, we continue to NASA's Jet Propulsion Laboratory (JPL) for an extraordinary behind-the-scenes experience. JPL's Pasadena campus is NASA's lead center for robotic exploration of our solar system. From Explorer and Voyager to Cassini and the Mars rovers, the majority of unmanned spacecraft and robotic missions sent into space were designed and built here. Guests will enjoy a two-hour guided walking tour of the campus, learning about JPL's history, accomplishments, current and future missions. As this is an active research and operations center, tour routes may vary slightly depending on operational activity. This tour involves extensive walking and uneven surfaces. ***Lunch is not provided. Minors 8+ are welcome to register if accompanied by an adult.***

**Registration closes Friday, April 17th**

**Stop by the Travel & Resource Room to purchase your tickets!**
